Memo No. _____

Date ____/____/____

During the school holidays, I attended a course on singing and acting. I am writing this review for the school magazine to let others know more about it.

On the positive side, the course was wonderful. We learned many new things. The teachers were very enthusiastic and encouraged everyone to participate. It is a great chance to explore our talents.

Nevertheless, there were some downsides. Some participants were overly serious, which made it less enjoyable at times. Moreover, as the course progressed, I started to feel bored during classes.

In ~~the~~ conclusion, this course has both ~~advantages~~ advantages and disadvantages. If the teachers can make the classes more engaging and ensure everyone has a relaxed attitude, it will be an excellent course for students in the future.
