New Writing Task - In-class Practising

Exercise 6

- 14 In your class, you have been talking about whether being a professional athlete is an easy job.

Your teacher has asked you to write an article about it.

Here are some comments from your classmates:

They have to train every day.

They get to do a job they love.

There's a lot of pressure on them to win.

They can earn a lot of money.

Write an article for your teacher, giving your views.

The comments above may give you some ideas, and you can also use some ideas of your own.

Your article should be between 100 and 150 words long.

You will receive up to 6 marks for the content of your article, and up to 6 marks for the language used.

There are different opinions of whether being a excellent/professional athlete is easy. Some people think that ~~it is very easy to do that~~ (it does not take much effort), while/but I hold different opinion (你的观点).

Firstly, professional athletes are usually under high pressure (论点 1).

They are not only from themselves but also from their coaches, fans, the expectation from their home countries (解释/阐述). For example, it takes swimmers years to make progress for only one seconds with a lot of training every day. / For example, for swimmers, even though they swim/train every day, it still takes years to make progress for just one second (例子).

On the other hand, it is true that they are doing the job they love and earn a lot of money, but they cannot achieve these with ease (论点 2).

During training and matches, they might injure themselves, which will affect their career. Some athletes get rich from high payment and winning the matches. However, these are always difficult to get (阐述+例子).

In conclusion, while there are benefits of being a professional athletes, this job is not easy due to the high pressure they experience.
